body text

Inter Pontífices qui talem debitam curam adhibuerunt, nomen excellit sancti Gregorii Magni, qui tam fidem catholicam quam thesauros cultus ac culturae a Romanis in saeculis praecedentibus cumulos novis Europae populis transmittendos curavit. Sacrae Liturgiae tam Missae Sacrificii quam Officii Divini formam, uti in Urbe celebrabatur, definiri conservarique iussit. Monachos quoque et moniales maxime fovit, qui sub Regula sancti Benedicti militantes, ubique simul cum Evangelii annuntiatione illam quoque saluberrimam Regulae sententiam vita sua illustrarunt, «ut operi Dei nihil praeponatur». Tali modo sacra liturgia secundum morem Romanum non solum fidem et pietatem sed et culturam multarum gentium fecundavit. Constat utique liturgiam latinam variis suis formis Ecclesiae in omnibus aetatis christianae saeculis permultos Sanctos in vita spirituali stimulasse atque tot populos in religionis virtute roborasse ac eorundem pietatem fecundasse.
